Preferred method of being contacted:

Day phone  Evening phone  Email

I want a *Healthy Virginia Lawn*. As a participant in the program, I give permission for a representative of Virginia Cooperative Extension Albemarle Office to come onto my property to take soil samples and lawn measurements.

I understand that the \$25 fee for the program covers the site visit, program materials, and one soil sample analysis. (Any additional soil analysis I request will cost \$10 per sample, plus postage for shipping to the Soil Testing Lab in Blacksburg.) Enclosed is a check made payable to *Treasurer, Virginia Tech* for the program fee of \$25.

Date

PLEASE COMPLETE BOTH SIDES OF FORM

## GARDENING QUESTIONS?

Call, e-mail, or visit our horticulture Help Desk. Trained Master Gardeners are available to assist you with scientific, research-based information.

**Hours:** 9 a.m.-noon, Monday-Friday

**Telephone:** (434) 872-4583

**E-mail:** [albemarlevcehelpdesk@vt.edu](mailto:albemarlevcehelpdesk@vt.edu)

**Address:** 2nd floor, Albemarle County Office Building, 460 Stagecoach Road, Charlottesville VA 22902-6441.

You may also visit our Help Desk in season at the Charlottesville Farmers' Market, the Meade Park Farmers' Market, and the Crozet Farmers' Market.

## MASTER GARDENING

To learn more about the Master Gardener program in Charlottesville and Albemarle County, community education projects, and free or low-cost events offered to the public, visit the Piedmont Master Gardeners Web site: [www.piedmontmastergardeners.org](http://www.piedmontmastergardeners.org).

Virginia Cooperative Extension programs and employment are open to all, regardless of race, color, national origin, sex, religion, age, disability, political beliefs, sexual orientation, genetic information, marital, family, or veteran status, or any other basis protected by law. An equal opportunity/affirmative action employer. Issued in furtherance of Cooperative Extension work, Virginia Polytechnic Institute and State University, Virginia State University, and the U.S. Department of Agriculture cooperating. Edwin J. Jones, Director, Virginia Cooperative Extension, Virginia Tech, Blacksburg; Jewel E. Hairston, Administrator, 1890 Extension Program, Virginia State, Petersburg.

Let us help you "green" your grass.

## A “green”lawn. . .

**. . . is healthy and disease resistant** Healthy, well-nourished grass resists diseases and insects, crowds out weeds, and better tolerates drought.

**. . . makes good use of time and money** Turfgrass is a high-maintenance plant. To grow it well, you need to know the best grass science.

**. . . makes you a better neighbor** Well-informed use of fertilizers, lime, and insecticides not only saves you time and money; it also makes you a good neighbor by protecting local drinking water and neighborhood streams, lakes, and ponds.

**. . . is easily achievable** When you sign up for *Healthy Virginia Lawns*, a Master Gardener volunteer will come to your home, measure your lawn area, collect a soil sample, and translate the analysis into a customized lime and fertilizer plan for your lawn. You will also receive information on best lawn care practices based on university-based turfgrass management research.

**To join *Healthy Virginia Lawns* . . .** Just complete the attached form and mail or bring it, with a check for \$25 made payable to *Treasurer, Virginia Tech*, to:

Virginia Cooperative Extension, Albemarle County Office  
460 Stagecoach Road, Charlottesville VA 22902
